### Our services cover

Sales

Repair

Servicing

Maintenance

Troubleshooting

Configuration

Firmware / Software Upgrades

Dear Customers, Partners and Well-Wishers,

Welcome to **Umang Telecom**.

I started my professional journey after completing my **B.Tech. in Information Technology from NSIT, Dwarka, Delhi, in 2019**. Since then, my focus has been on building a technology service organization based on **technical expertise, reliability, transparency and customer satisfaction**.

At Umang Telecom, we provide solutions and technical services for **networking and communication infrastructure**, including **routers, switches, network equipment and Polycom Video Conferencing Systems**.

Our services cover **sales, repair, servicing, maintenance, troubleshooting, configuration and firmware/software upgrades**, supported by practical technical knowledge and field experience.

I believe that technology is valuable only when it is **reliable, properly maintained and supported when customers need it**. Therefore, our objective is not simply to supply equipment, but to build long-term relationships by providing dependable products, professional technical support and responsive service.

I sincerely thank our customers, business partners and team members for their trust and support. We look forward to continuing our journey of **growth, innovation and dependable technology services**.
